

BIHLER

of America, Inc.

Bihler machines are known for their reliability. However, should a problem arise, our highly qualified technicians are at your service. Our experts will diagnose the problem, create a solution and perform necessary service on your Bihler system quickly and efficiently. Our goal is to always ensure that your production runs smoothly, and that we meet our customers' expectations.

Our Customer Support Services Include

ON-SITE

A Bihler Service technician will come to your site and will examine your machine. The technician will prepare an inspection report containing findings and once approved arrange repair.

REMOTE

Using the latest AR technology, compatible with varied platforms including smartphones and tablets. Bihler AR Remote Service addresses any problems that may arise in the operation of Bihler Systems, offering quick and efficient solutions.

MACHINE REBUILD

Refresh and Upgrade your existing Bihler machine to perform better than new! Bihler VC-1/VC-1E Controls, Servo Modules, OPC-UA compatible and more. Take **YOUR** machine to the highest level of current manufacturing

TRAINING AND CONSULTING

The Bihler's professional training team is ready and waiting for you, with our new online training courses in addition to the established training and consulting program. From your new employees to our seasoned users, we will perfect your skillset on Bihler systems.

Bihler of America provides first-class support for your Bihler Machine
