Engineered Medical Solutions CO. LLC 85 Industrial Dr. Bldg. B Phillipsburg NJ 08865 (908) 329-9123

NEW SURGICAL RETRACTOR

Engineered Medical Solutions is proud to announce they have added a new product to their line of surgical lighting products. The Safe T Surg Retractor is a transparent non-conductive Richardson style retractor that is geared towards minimizing the burn risk associated with electrosurgical procedures. The lightweight and ergonomic retractor will not transmit electrocautery energy to soft tissue that can cause burns. Please contact us for a free trial.

MEDICA 2015 IN GERMANY

EMS is looking forward to exhibiting again this year at MEDICA in Dusseldorf Germany with JEB Engineering and Design November 16-19th. EMS is in the process of applying for CE for their line of products and will be seeking international distribution opportunities.

OUR FIRST ASBS MEETING

EMS exhibited at the 16th annual ASBS meeting in Orlando April 30th-May 2nd. This was a great opportunity to unveil the new Safe T Surg Retractor alongside our LED Surgical Lights. EMS received a great deal of positive feedback and will look forward to attending in 2016.
